KPMG

August 11th, 2022

To whom it may concern,

Hello, my name is Andrew, I'm a Front End Web Developer based in Toronto. I'm applying for your Junior Software Engineer role at KPMG. Along with programming I have strong sales and management experience so I believe my collaboration and interpersonal skills are strong.

My front end tools include HTML5, CSS3/SCSS, Javascript, React, responsive and accessible design, REST APIS, Github and Firebase. I am also familiar working with Django (python), Figma and Jira.

I think I would be a great fit for the role. Is there a way I could set up an interview? My resume is accessible through my website linked above.

Thank you,

Andrew Craig
