

ANDREW CRAIG

Front End Web Developer

ABOUT:

Hello, my name is Andrew, I'm an entrepreneur turned Front End Web Developer. I'm passionate about workflow efficiency (Emmet, SCSS and React) and I am excited to write code that saves time for other people. Along with my tech skills, I have nine years of sales experience working with the management of sixteen retail stores in Toronto. My time working as a film director gave me the opportunity to lead teams of five to seventeen people, employing creative solutions to stay within budget and stay on task. I believe my diverse skill set makes me an excellent candidate, and I would love to be a part of your team!
